

Revenue Collection Services

HCR Services offers a range of flexible services to suit demands around NHS revenue cycle management and debt collection.

Whether you are a Trust looking to recover ad-hoc debt or deploy cost efficient invoice management and billing processes, HCR offers a series of innovative technology platforms, leading data analytics and processing services to ensure the NHS can improve back end debt recovery, ongoing cost identification and invoice management. The perfect accompaniment to a HCR debt diagnostic, our bespoke offering integrates seamlessly within current provisions to increase liquidation, maximise accrual and provide cost efficient economies of scale and best practice protocol for cash processing, invoicing, reconciliation and collections.

95% of hospitals are in deficit compared to only 60% in 2014/2015

Combined average deficits
have doubled from 3% to 8%

**Call HCR Services today to discuss how HCR can assist to
improve your financial position through Revenue Collection**
